MEMORANDUM FOR: Director of Global Issues

FROM : 
Chief, Economics Division

25X1

SUBJECT : Revised Economic Advisory Board Memo

This revised version should alleviate the Director's concerns over size and participation. The twelve chosen bring strong credentials to bear in one or more of three key areas: international economic policy formulation, identifying and verbalizing the issues, and understanding the nature and scope of our policy support effort. I think this group is particularly sensitive to some of our problems, should offer credible advice, and should operate effectively together.
